

**WILEY** MINER, FAMOUS "BAD MAN" IN CAPTIVITY.—This is taken in Gainsville, Florida, shows "Red Head" Miner, the most daring train robber and express stage pilferer in America, in the study of a burly shifter, handcuffed. Miner is a graded old veteran in crime, about twenty years old, yet he has never shot a man, and is well known for his free-banded generosity. He is an under-sized, slightly built fellow, with widely eyes and a nerve like iron. In modern dress Miner makes friends. When in custody, and already a famous ladie, are sending him delicacies, and taking no notice, as, indeed, did the women of New Westminster, B.C., before he

It stands every test. It is easy for you to say it is good but your risk nothing when buying Blue Ribbon because if you are not entirely satisfied with it your money will be promptly refunded by your grocer.

## HON. CLIFFORD SIFTON SPEAKS IN MONTREAL

Admission Was By Ticket to Meeting of Anti-Respectability League and So Meeting Was Thoroughly in Favor of the Speaker's Views.

Montreal, March 20.—Hon. Clifford Sifton was the principal speaker at the anti-respectability league meeting tonight in the Victoria Hall. The hall is small and no admission was by ticket, the result being a gathering of leading business men and one thoroughly in sympathy with the speaker. An over-the-meeting held outside was hardly as successful, the conditions not being favorable. Students hailed Mr. Sifton with enthusiasm and light procession to the hall.

"Chas. Christ, president of the league, presided, and with him on the platform were many of the leading citizens of Montreal, including a considerable number of Liberals.

"I have been in politics for twenty-three years," concluded Mr. Sifton, after lengthy speech, "but never before have I seen a Government bring down an important measure to parliament and an entirely fail to make good in argument as the Government has done in this case.

"The Government has totally failed to put before parliament or before the people of Canada a fair statement, promising statement of this situation, which are necessary before we can have a fair and comprehensive view of this question.

"The bad feature of this proposition is that it puts a premium upon bad farming and the shipping of Canadian products to a foreign country, there to be worked up at a profit while they seek to us what we are able to buy in manufactured products at enhanced prices."

Advocates were also made by A. Lash of Toronto, Prof. Lemack of McGill, H. T. Chas. Coughlin and Z. A. Frothingham of Montreal, after which a resolution disapproving of reciprocity was unanimously adopted.

**CANADIAN BANK STATEMENT.**  
Ottawa, March 20.—The statement of the Canadian banks for the month of February, which has just been issued by the Department of Finance, shows increase in bank circulation, in savings deposits, and in loans, and decrease in deposits, and in deposits in call loans. Note circulation of the banks is returned at \$2,782,000,000, February 28th, an increase during the month of \$2,616,414. Demand deposits amounted to \$248,240,243, a decrease of \$10,817,777. Bank deposits increased to \$1,659,854, being returned at end of February at \$1,651,124,775. Deposits in Canadian banks outside of Canada show an increase of \$2,190,324.

## SCHOOL IN DAIRYING TO OPEN AT INNISFAIR

Alberta Department of Agriculture will give Two Weeks Course of Instruction in Creamery Bacteriology and Management, commencing Monday, April 2nd.

A short course school in dairying, following the plan of the successful short course schools in agriculture, will be conducted at Innisfair, commencing Monday afternoon, April 2nd, by the Alberta Department of Agriculture. Instruction will be given for two weeks in creamery bacteriology and management. A general invitation is extended to creamery butter-makers, secretaries and managers of the province to take advantage of the services of the course.

Following is an outline of the work which will be taken up:

a) In the cream-room, lectures will be given on chemistry and bacteriology in relation to dairying; the principles of bacteriology; milk and cream production; testing and butter-making; creamery book-keeping and management; marketing and marketing of dairy products; dairy management, etc.

The school library contains text books and a number of agricultural and dairy journals for the use of students in attendance.

(b) Practical work. The Alberta Department of Agriculture has generously placed the creamery, equipment and cream supply at the disposal of the department for dairy school purposes and practical work will be carried on in the following departments:

(c) Testing Room. The testing of milk and cream for butter fat and acidity; the testing of butter for moisture and salt contents. Complete instructions will be given in the use of the Babcock test; the acidimetric test; the Goldard, Farrington and Irish Moisture tests; and in the use of test for determining the salt contents of butter.

(d) Butter Room. An ample supply of milk and cream is secured, and practical instruction will be given in this department in the pasteurization of milk and cream by the acid and the Farrington methods; in preparing pure cultures; in cream ripening; in the grading and scoring of cream and butter; in churning, working and packing butter.

(e) Dairier House. The care and handling of bolsters and engine, pipe fitting, motor and general repair work will be fully explained and demonstrated by the instructor in charge.

(f) The book-keeping department will present yet simple accounting system for creameries, including "patrons' stock book, cash and general ledger. Specimen forms of these will be given to each student so they may become familiar with all details.

Students are invited to attend the whole course, but if they are unable to attend for a shorter time, they will get the greatest possible benefit from the time spent. A detailed programme of lectures, which will be mailed upon application to the dairy commissioner at Calgary.

The students will be expected to take part in the practical work under the direction of the instructor in charge of each department, and any department in which they may wish to specialize.

**Ida of instructors.**  
The instructors of the school and their subjects are as follows, viz.: The Dairy Commissioner, director of the school, deals with creamery management and economics, markets, dairy legislation, etc.

Professor A. Lehmann, University of Alberta, chemistry in relation to dairying.

Dr. D. G. Revell, provincial bacteriologist, etc., bacteriology in relation to dairying.

H. S. Pearson, provincial dairy inspector, butter-making and pasteurization.

Mr. George W. Scott, provincial dairy instructor, testing of milk and its products.

Mr. J. P. Ryan, engineer, boiler and engine etc.

Mr. G. H. Hutton, superintendent Departments Farm, Lacombe, dairy herd management.

Mr. P. W. Underwood, accountant dairy herd, ranch, book-keeping.

Particulars as to hotel accommodation, attending students should write Mr. George W. Scott, Innisfair.

## MAKES STRONG PLEA FOR A UNITED CANADA

Hon. Frank Oliver Addressed the Canadian Club at Montreal—His Subject Was "The Place of the Northwest in Canada."

Montreal, March 20.—"I have no patience with the people who hold that there is a diversity of interest between one section of Canada and another," declared Hon. Frank Oliver, speaking before the Canadian Club today on "The Place of the Northwest in Canada."

"We are occupying a country, if not as large as Europe, at least as large as Western Europe, which is from many standpoints the civilized world today, which holds the world in the hollow of its hand.

"It is an age of combinations, of mergers of vast aggregations of capital. The day of the small country is gone. Prince Edward Island and the Maritime provinces would not like to be a separate country as they once did, and the prairie provinces do not want to be a separate nation-state, which holds the world in the hollow of its hand.

"It is by recognizing to the full the rights and interests of all sections of the community that we can expect to achieve the ultimate destiny of what we hope to be one of the greatest countries in the world, a leader in civilization and everything that makes for civilization in the British Empire."

Mr. Oliver did not mention reciprocity during his address, but continued to speak for determining the salt content of butter.

**Immense Population of India.**  
Calcutta, Mar. 20.—The final provisional census returns give the population of India as 215,000,000. This is an increase of 20,500,000 as compared with 1901.

**BRINGING BEEF FROM EAST.**  
Is Being Imported Into Winnipeg After Being Shipped to Ontario Last Fall.

Winnipeg, Mar. 20.—When the cattle were being shipped east in such large numbers last fall it was predicted that the beef trade would have to be brought back again for local consumption. Between Friday and Monday five carloads of beef from Toronto have arrived in the city and the next lot is due to arrive in from \$1.75 to \$1.90 per cwt, or one cent under the present market price of carcasses to the wholesale trade.

Other cars are under contract and as soon as they are received the beef trade will be in a position to meet the demand. The live cattle will be sent back.

In addition to this there arrived from St. Paul this morning, 412 head of fat calves to supply Winnipeg trade.

**TO CLIMB A CHIMNEY IN ONE DAY.**  
Take LEXINGTON BROS. Chimney Sweeping Service. No matter how tall or wide a chimney, we will clean it in one day. W. W. CHLOVER, signaller on each side.

## Mr. Investor!

Just a few minutes confidential talk with you. Would you ever able to buy anywhere, lots within a mile of the limits of a city like Edmonton, at \$90? If you are a person who has travelled, or lived in some of our large cities, you will know how a city goes after reaching the thirty thousand mark. Previous to that it only learns to walk; afterwards it runs on wheels. The car line has been surveyed to pass this property in the near future. Now, you do not want to wait until that line has been built and the sidewalks down. If you do you will have to pay a big price for these lots. Get in before these things and get the benefit before the rise. Call in and let us tell you the special features connected with this popular sub-division. Let us drive you out. You do not have to buy.

## CITY MAY BUILD BIG POWER PLANT

RATEPAYERS TO VOTE ON MUNICIPAL PLANT AT GRAND RAPIDS

At a special meeting of the city council held last evening for the purpose of considering the several propositions for the development of hydro-electric power now before the city, it was decided to enter into negotiations with the Dominion Government for the establishment of a grand Rapids on the Athabasca River of a municipal plant, in accordance with the recommendations of Engineer Fiddling, who made the preliminary survey last fall. The city has been advised that in order to retain its rights to this site it must notify the Department of the Interior before April 22 of its intention to enter into the agreement submitted, requiring the commencement of operations on or before the first January next. It is estimated that with an approximate capital expenditure of \$1,000,000 power can be obtained sufficient for the needs of the city for all time at a rate of a little less than 15¢ per horse power per annum.

**Another Proposition.**  
A proposition was also received from a syndicate represented by Mr. Neville, of the firm of Neville & Co., surveyors and engineers, Alfred Vielle, and E. T. Bishop, of the firm of Bishop, Grant & Delavault. In the event of the city dropping the development of power at Grand Rapids these people agree to take up the matter. They submit alternative schemes. Prices are quoted first for the delivery of power in Edmonton, with an alternative scheme for the city to do their own transmission, current to be measured in one case at the city of Edmonton at the transformer station, and in the other case at the site. The company would require a guarantee that the city would want 10,000 horse-power within five years from this time. The rates quoted are as follows:

10,000 h.p. delivered to Edmonton, \$12.50 per h.p. per annum.  
25,000 h.p. delivered to Edmonton, \$15.00 per h.p. per annum.  
50,000 h.p. delivered to Edmonton, \$15.00 per h.p. per annum.  
With the city doing their own transmission the rates would be:

20,000 h.p. at \$12 per h.p. per annum.  
25,000 h.p. at \$10 per h.p. per annum.  
Mr. Bishop stated that the development of power at the site was contingent upon the refusal of the city to establishment of a municipal plant.

**Consent of City's Growth.**  
In discussion that requirement that the city should guarantee that within five years from date they would be using 10,000 h.p. per annum, many of the aldermen were disposed to think the company should take the chance of the city's growth to the point when it would require this amount.

Mr. Bishop denied the statement that the company set out on its survey of the site only after the city had declared its intention of so doing. He stated that their application was in Ottawa in November, but that the Hon. Mr. Oliver, in view of the fact that he had been advised that the city was taking the matter up, "held them over."

Both this proposal and that of the establishment of a municipal plant were thoroughly discussed, with occasional reference to that of the Edmonton Heating & Lighting Co., whose last proposition was the sale of the completed plant at \$3,000,000, or the supply of 10,000 horse power under a thirty-year contract at the rate of \$27 per horse power per annum.

**Ratepayers Will Say.**  
A majority of the aldermen were in favor of giving the ratepayers an opportunity of saying whether they wanted a municipal plant or not. With this end in view an effort will be made to secure an extension of the time allotted for finally entering into the agreement, and data will be obtained for the submission of a by-law to the people.

"If we cannot use all the power," remarked Ald. Hyndman, "we can supply it to the town and use the C.N.R. Personally, I have no doubt that within a very short time you will find electricity in general use even on the farms."

"If we cannot use all the power," remarked Ald. Hyndman, "we can supply it to the town and use the C.N.R. Personally, I have no doubt that within a very short time you will find electricity in general use even on the farms."

## STUDENTS OVERTURN SIFTON'S CARRIAGE

Anti-Reciprocity Demonstration in Montreal Did Not Turn Out the Success Promoters Expected—Free Fight Between Police and Reciprocity Students.

Montreal, March 20.—The introduction of the McGill students into the anti-reciprocity demonstration tonight was hardly the success the promoters looked for. At 7:30 Mr. Sifton addressed the McGill men in the union, but his speech was not a success, a gathering of about forty reciprocity men having enclosed themselves in the gallery from which they continually hurled interruptions. Then Mr. Sifton and Professor Leacock were placed in a carriage drawn by students and the route to the Windsor Hotel taken up.

Half way to the hall, there was an organized rush of the reciprocity men to the carriage and the carriage was overturned and Mr. Sifton and the professor were compelled to walk the rest of the distance. The carriage was speedily recaptured and taken up to the McGill grounds. Here it was filled with wood and set on blaze, the fire brands were called out to put the fire out. Once more gained possession of the remaining part of the vehicle the students drew it through the principal streets adding to the hilarity of the occasion by breaking car windows and a few store windows.

The police so far had not interfered to any great extent, but when the procession returned to the McGill grounds, they made up their minds that it was time for the students to disperse. A rush was made and there was some clothing.

Some of the students beat a retreat to the Y.M.C.A. pursued by the police. The students got out the blue-coats, when they also as well as snowballs. The police finally won out and the students were dispersed. Several arrests were made.

**Big Loss of Miners Lives.**

Harrisburg, Pa., March 20.—It cost the lives of 1,115 men to mine 231,964,979 tons of coal in Pennsylvania last year, according to the annual report of the state department of mines just issued.

## STRATHCONA NEWS

### LOCALS.

A. E. Farncombe, a well known civil engineer of Strathcona, acting on behalf of Strathcona, Jarvis, has bought through Jas. P. Gault, Red Deer, the Biggs and Caldwell farm of 410 acres, 1 1/2 miles southeast of the town for \$4,500, or \$10 an acre. The farm is to be subdivided, it is said, and sold in the eastern market.

Miss Emma Lendrum who has been spending some time at her home in Strathcona, leaves next week to resume her course of training at the Brandon hospital.

The first train of the summer tri-weekly night service between Strathcona and Calgary reached Strathcona yesterday morning with a large number of passengers. It left again early this morning with nearly all the berths filled. The convenience is much appreciated by the travelling public. The rates for the berths are now \$1.50 instead of \$2.50 as formerly.

The regular weekly meeting of the Strathcona council will be held tonight. There are a number of tenders for machinery, etc. to be considered by the council board.

Says the Wetaskiwin Times: "The many friends of the Horner family regret that they are leaving the city shortly for Strathcona. As Mr. Horner has been transferred to the Calgary-Edmonton run, this move will enable him to spend every other night at home."

The Edmonton County Royal Re-Charter Chapter held a meeting in Strathcona Grand Hall last evening. The Chapter opened in Wetaskiwin on the 14th inst., and this adjourned meeting was specially held for the exhibition of candidates. Super was served after the ceremony at which there was a large attendance of members of the order.

**Crook Outwits Jewellers.**

Guilph, Ont., March 20.—An unknown crook succeeded in substituting a \$15 ring for a \$50 diamond ring in the jewelry store of G. B. Prince, of Guilph. Going to Galt, the crook repeated the game on Jas. Trotter, jeweller. Mr. Prince's \$25 stone in place of a \$50 ring in Mr. Trotter's tray. Neither jeweller could give a description of the crook.

### Gets Pension After Long Time.

Kingston, March 20.—The United States pension bureau has acknowledged the claim of Emory A. Miller of Odessa, who served three years in the Michigan cavalry in the civil war. As soon as he presents his muster out papers, he will receive the pension which another man has been drawing in his name for 29 years past.

### New Mayor of Indian Head.

Indian Head, Sask., March 20.—G. R. Davidson, was elected mayor of Indian Head today by acclamation to complete the term of the late P. L. Mackey.

### Motion Pictures in Winnipeg Church.

Winnipeg, March 19.—Rev. J. C. Walker, pastor of one of the city's Methodist churches, introduced motion pictures into his service tonight, an innovation well received by his congregation.

## SAVE THE HAIR

### Newbro's Herpicide Will Do It

No woman should have poor, thin, scraggy hair, and no man need become bald. Poor hair and final baldness are due to the dandruff germ. Newbro's Herpicide will destroy this little germ and stop the hair from falling. Further evidence of this is found in a letter from Mrs. P. Nelson, of Tonaw, Wis. She says: "I fought the worst kind of dandruff for nine years. I have been using Herpicide now one week and my scalp is healthy, the dandruff has gone and the itching has stopped. It is the best remedy for scalp disease I ever saw, and I have seen many."

Don't subject yourself to disappointment and expense by accepting something claimed to be "just as good" as Newbro's Herpicide. These off brands may possibly be good, but why take chances? The genuine and original dandruff germ destroyer can always be obtained. If your own druggist has nothing but "just as good" articles, go to Geo. Davidson, who will furnish you with Newbro's Herpicide and guarantee one dollar back if it stops itching of the scalp almost instantly.

Send the in postage or silver for sample and booklet to The Herpicide Co., Dept. H., Detroit, Mich. Application at good barber shops.

### Was a Hamilton Girl.

Hamilton, March 20.—Mrs. Schenck, the Chicago woman who shot her husband Saturday morning in a former Hamilton girl, her maiden name being Jessie Hamilton.

It is years since she left Hamilton. Her brother, Fred Hamilton, a York street plumber, has gone to Chicago to look after her interests.

### Guilph Has Youthful Thieves.

Guilph, March 20.—The mystery surrounding the theft of money at the market for three weeks past was solved by the arrest of two eleven-year-old boys who confessed that they were the thieves.

### Many Coming From Dakota.

Calgary, March 20.—L. O. Rutledge, who has just returned from the States says: "There is going to be the biggest immigration to this part from North Dakota that there ever has been," he said. "They are coming in thousands. I was in several parts of North Dakota, I was in Chicago, Minneapolis, and other places, and everyone seemed to be interested in Calgary."

## Tea Time Talks The Healthfulness of Tea

Physicians who often forbid the use of Coffee and Cocoa is the well, prescriptive tea for the sick. Of the three, tea is the only beverage that can be drunk for a lifetime without injurious effects. It is a harmless tonic—a gentle stimulant without reaction.

As tea is the most desirable beverage, so "Salada" is tea in its most desirable form. "Salada" is Ceylon Tea comes from tea plant to tea pot untouched by human hands, from this time the leaves fall into the picker's baskets. Its delicate aroma and delicious flavor are perfectly preserved to serve, air-tight packages.

Ask your grocer for "Salada" Tea and you will find it the perfect beverage without any of the harmful elements of Coffee and Cocoa. It is a harmless tonic—a gentle stimulant without reaction. It is a harmless tonic—a gentle stimulant without reaction.

## BIG CROPS PROMISED IN SOUTHERN ALBERTA

So says R. L. Nesmith, the General Manager of the Alberta Railway and Irrigation Co., who is on a tour to Calgary.

Calgary, March 20.—Given more moisture at the proper time this season, the southern Alberta will have a crop of grain that will exceed any crop ever produced in the south, said R. L. Nesmith, general manager of the Alberta Railway and Irrigation Co., who arrived here on his special car this morning, in the course of a brief interview.

"There are hundreds of acres in full wheat, and so far, the prospects for a splendid crop of this wheat are fine," he continued.

"The country down, there will get its due this year if an untimely drought does not occur."

Richard Iverson was appointed parks superintendent, and Archie Mitchell, who is the well known forester at present at Indian Head, consulting superintendent, at a meeting of the Parks board and the committee held in the commissioners office this morning. Iverson is at present at Indian Head.
